

February 7, 2018

As you may be aware, we held a community meeting on Tuesday, January 23<sup>rd</sup> at Little River Country Club. The meeting was well attended and it gave us an opportunity to provide detailed information to the community about our activities to date and our plans for the future. It also gave us an opportunity to meet with residents directly, many for the second time, and address questions.

We appreciate your partnership as we work towards the resolution to the PFOA and PFOS issues in the area.

As we promised at the meeting, we are very committed to keeping an open channel of communication with you and the community. We've posted the presentation from Tuesday's meeting on the website we created specifically for this issue: <http://marinette.tycofpp.com/>.

We will continually post relevant updates to the site. However, we'd like to learn from you how you would like to receive additional information and updates from us. We want to be mindful of your time and ensure we are communicating at the right frequency and in the most convenient manner for you.

If you could please complete the enclosed brief survey and return it in the postage paid envelope that's enclosed, we'll use your choice(s) as our guide in how—and how often—we should reach out to you.

Importantly, if you would like to receive email updates from us, please be sure to fill in your email address on the appropriate line. Otherwise, the survey can be completed anonymously; please know that we will not use or share your personal information with anyone.

As always, any time you have questions or would like to set a time for a personal meeting, you can reach us through the call number at 800-314-1381.

Again, we appreciate your patience and partnership during this process,

Regards,

Jim Cox

Sr. Manager, Marketing Communications

## Survey:

1. What method(s) of communication works best for you. Please check any that apply, and if you check more than one, please circle the MOST preferred:

- Mailings via USPS
- Emails (please provide your personal email address) \_\_\_\_\_
- Community meetings\*
- Posts on our dedicated website <http://marinette.tycofpp.com/>
- You call our toll free number (1-800-314-1381) when you have a question

\* If you are interested in the Community meetings option, please indicate the frequency you would like us to host these meetings:

- Every other month
- Quarterly
- As needed based on the status of the investigation

2. Which website do you visit to get information:

- <http://marinette.tycofpp.com/>
- Wisconsin DNR
- Wisconsin Department of Health Services
- United States Environmental Protection Agency (EPA)
- None of the above
