

# ADVISORY

## Possible Chemical Exposure Hazard

This water contains PFAS  
(per- and poly-fluoroalkyl substance)

The Wisconsin Department of Health Services recommends that to best protect you, your family, and your pets from potential PFAS exposure:

- **Avoid drinking or accidentally swallowing the water or foam.**
- **Wash your hands after wading or playing in the water or foam.**
- **Rinse pets after contact with water or foam to avoid swallowing surface water that may be on their fur.**

Touching the water or foam is not a health concern.

This surface water is currently being investigated and cleaned up in accordance with Wisconsin laws.

# ADVISORY SIGNS FOR SURFACE WATER

As part of the on-going investigation of per- and polyfluoroalkyl substances (PFAS) in the Town of Peshtigo and the City of Marinette, Tyco is posting advisory signs at various public ditches and surface water locations in the area to inform the community of the potential presence of PFAS. This advisory may also be relevant to some owners of private ponds.

A map with specific sign locations is available from the Department of Natural Resources. A copy of the advisory sign language is provided below:

**ADVISORY: Possible Chemical Exposure Hazard**  
This water contains PFAS (per- and poly-fluoroalkyl substance).

The Wisconsin Department of Health Services recommends that to best protect you, your family, and your pets from potential PFAS exposure:

- Avoid drinking or accidentally swallowing the water or foam.
- Wash your hands after wading or playing in the water or foam.
- Rinse pets after contact with water or foam to avoid swallowing surface water that may be on their fur.

Touching the water or foam is not a health concern. This surface water is currently being investigated and cleaned up in accordance with Wisconsin laws.
