

Join Us: Public Meeting for Updates on PFAS Remediation

Tyco recently received the green light from the Wisconsin Department of Natural Resources (WDNR) to implement its **Groundwater Extraction & Treatment System (GETS)**. Our contractor also recently **began removing soil containing PFAS** stored at the Fire Technology Center (FTC).

To share details concerning these actions to remove the PFAS that came from our operations, Tyco is hosting a **Public Meeting on Tuesday, June 29 at 6 PM**. A presentation will be given by the GETS Senior Engineer from Geosyntec, and questions will be answered by members of the Tyco team, including Chief Sustainability Officer, Katie McGinty. Representatives from WDNR will also attend the virtual meeting.

We look forward to sharing more information about GETS construction and soil removal and what to expect when the work is complete, as well as hearing your feedback and answering any questions you may have.

JOIN US FOR OUR PUBLIC MEETING

Tuesday • June 29th • 6:00 PM CT

THREE WAYS TO JOIN

- 1 Use the Zoom Link:**
bit.ly/35HfKjG
- 2 Use Login info:**
ID: 939 4116 3653
Passcode: 070029
- 3 Dial In:**
+1 (312) 626-6799

If you cannot virtually attend the meeting, we will post the presentation and other information on our website www.TycoMarinette.com. As always, you can send an e-mail via the website or call **715-582-7100** with any questions or input. In late July, we will also begin regular "Office Hours" when you can virtually ask the Project's Senior Engineer about our progress.

**We look forward to sharing our work
and hearing your feedback!**
