

# Groundwater Extraction and Treatment System (GETS) Upcoming Construction

- What:** Extraction wells will be installed at 8 locations indicated below. Expect a drill rig and other equipment in each area for 1-3 days and intermittent single lane closures at each location.
- When:** Scheduled to start the week of October 4 during normal business hours; weather dependent. Work is anticipated to take approximately 4 weeks to complete all locations.
- Where:** Road Right-of-Ways including Oak View Rd., Edwin St., and Richard St.; City of Marinette Property; Tyco property along Ditch B; and Tyco's Fire Technology Center.
- Why:** Extraction wells will capture PFAS-impacted groundwater that originated at the FTC before it enters Ditch B and re-route it through a treatment system prior to releasing into Ditch B.
- What's next?** Installation of conveyance piping and connection vaults, which will house the wells, scheduled to begin mid-to-late October.
