NOTES:

1. All permitted land applied biosolids sites shown have approximate locations based on quarter-quarter section data. Although some sites have more accurately defined locations, not all site data has been received; as such to not mix results only quarter-quarter locations were used.
2. All data in this figure was obtained from the WDNR In Open Record responses dated March 17 and August 5, 2022.
3. Marinette Wastewater Utility (POTW) application sites represent all historical field sites that received land applied biosolids from Marinette POTW (1996-2017).
